

## DEPARTMENT OF BENEFIT PAYMENTS

744 P Street, Sacramento, CA 95814

April 14, 1976

ALL-COUNTY LETTER NO. 76-64

TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: APRIL 1976 FOOD STAMP WORKSHOPS

REFERENCE:

We have scheduled a series of one-day workshops to discuss the various regulation changes which will be effective in May and June.

The proposed USDA administrative changes are not yet final, and the Department of Benefit Payments is taking specific planned action regarding these proposals. The workshop will plan time for discussion of the current status of these proposed changes, current state activity, and the necessary state and county activities required to implement these changes. The work registration, student tax dependency, and immediate need issuance regulation changes must be implemented as scheduled. Therefore this training is necessary and will be held regardless of the status of the USDA administrative changes or of current Congressional legislation.

The Los Angeles Workshop will be confined to the Los Angeles County staff. It is requested that other counties restrict the number of staff attending the workshops to a maximum of three or four persons because of the limited nature of the subject matter. It is also requested that counties select their staff attending the workshops with consideration for their training abilities in order to effectively transmit the food stamp material presented to their county welfare income maintenance staff, such as the Food Stamp Coordinator and training staff.

The food stamp material to be covered in the workshop will be limited to immediate changes the county will be mandated to effect. Long-term food stamp revisions, proposed for later implementation may be discussed upon completion of the session, but will not be included on the workshop agenda.

Attached to this letter, please find the workshop location sites and times, plus a workshop agenda.
